Names in Bold Type have Photos in Album. See Index in Front of Book.

Additional phone numbers will be found under photos.

OUR NEXT ISSUE WILL BE

The Anniversary Album

It will be a Triumph

It will contain photos of practically every child of ability and prominence on the screen today.

This present issue completes our first volume. It is an achievement.

A year ago the "Album" was a stranger in the studios. Issue by issue, through merit alone, it has won its way.

It is now a recognized and established authority on screen children. It has won because it is reliable.

The "Album" claims no influence or "pull" aside from its excellence.

This excellence consists in the very high average of the children listed within its pages. By process of selection and *elimination,* this average is being raised with each new issue.

The "Album" is the only directory containing a *selection* of children of each type and age.

During the year the "Album" has consisted of 270 pages (approximately 150 square feet) of photographic display of experienced screen children—more than all other directories combined.

The "Album" is not and never will be a *Commercial Success.* It is not published on that basis.

The average cost of space in the "Album" is from one-half to one-fourth that of any other directory.

The "Album" is published by "The Screen Children's Guild" for the purpose of providing for its members the most practical, dignified, and economical means of reminding casting directors of their appearance, ability and experience.

In order to make the "Album" most useful to the studios and casting offices, it is not limited to guild members but welcomes all picture children of *proven ability and good standing.*
